

The person who can solve mathematical problems, can lead life easily, Mathematics teaches us that every problem has a solution...we can find number of solutions for one problem ...apply it in the life and live happily ... —Swetha

The Post-Graduate Department of Mathematics is the pride of the College. It has produced some of the best students of Mathematics who are earning name and fame for themselves and the college. The Department was established in 1918 for intermediate classes under the headship of Prof Kishan Chand. In 1929 the Degree Classes were started when Prof. Bansi Lal took over as head of department. Later on in 1930

Honours

classes were also started. Of the very first batch that appeared in

Honour

Exam., in 1932, Sh.F.C.

Auluck

(later did D.Sc. and retired as Professor and Head of Department of Physics, Delhi University) stood first in the University. Since then the Department has built up a glorious record in respect of results in the University Exams and which are unique both in quality and quantity. M.

Sc
